

Earth Healing – Fires

By:Arlais

Tonight we meet to raise energy to heal the areas and peoples ravaged by fire in Australia

Let us now raise our circle of Airt.

Let the circle be cast by my power and my love to stand in a place outside time and space as a zone of safety and magick. Come now the Guardians of Air, Fire, Water and Earth, I welcome you and invite you into our circle in true love and friendship. Come now animal spirits of the four directions – eagle, cougar, whale and bear. Be welcome here tonight – we greet you with love.

The circle is now complete, Blessed be!

let our ritual begin.

I call on the Goddess Gaia, eternal Mother and invite Her into our circle tonight. Gracious Lady I welcome you with love, and ask you to aid our work tonight as we raise energy to heal the damage caused by the Australian fires Blessed be!

The fires still burn in the Australian land, many animals and people have lost their lives, homes and possessions have been destroyed, and worse, these fires were started by some evil men. Let us now raise energy to help.

Visualise a fountain in the circle before us, a fountain of cool and clear water, the fountain of life. Within this fountain we see the full wonder of creation, the gifts from Gaia. Within

this fountain is the very essence of all that is. Let us give thanks for this now, in our hearts and souls.

Now turn your thoughts to Australia, share the grief of the world for this disaster. Begin to channel your grief towards the fountain. See the fountain rise higher, see it glow brighter. Now tap into the grief of the world and begin to channel that towards the fountain. As you do so see the fountain rise ever higher, shine ever brighter. The top of the fountain is now far beyond your sight. And now, the Lady Gaia steps forward and raises her arms to the fountain. The whole top appears to lift off, and hangs suspended in the air. You realise it has become a cloud. The Lady waves her arms and "pushes" the cloud away. With your inner eye watch it travel across the globe towards Australia. See it float above this land, easily covering the entire damaged area. See it drop cooling rain to quench the fires, and gentle, soothing peace and hope for all who suffer, easing grief, healing wounds in body and mind, restoring the land.

So mote it be!!

Hold the vision for a moment longer and know that it will be so.

As the vision fades I turn to the Lady Gaia and offer her the traditional gifts wine as a sign of our thanks and love.

Gaia, Goddess of the Earth and Mother of us all, I ask you to accept our small gift as a token of our thanks. Till we meet again, we part in love Blessed be!

Our ritual is ending, our work is done for tonight but the fight continues. Please continue to send energy to Australia during the week. Blessed be!

Guardians of the elements, of earth, water, fire and air, we part in love till we meet again. Blessed be!

Let our circle stand open but forever unbroken, let the power raised tonight continue to work and let us remain friends now and for always. Blessed be!
